Work for Engineers in Saxony-Anhalt / Germany

A project for young engineers (graduates), for example in mechanical engineering, electrical engineering or chemical engineering, who live in one of the East European EU member states and would like to start their professional career in Germany.

You should be interested in a qualified job in the federal state Saxony-Anhalt and have basic German language skills (level A2 of the Common European Framework of Reference).

Our programme offers:

- a three-month intensive German course in Halle/Saale in differently timed groups
- a three-month internship in a company in the south of Saxony-Anhalt with the opportunity of a subsequent permanent employment

Plus:

- monthly grant to cover main living costs
- accommodation in guest apartments
- health insurance
- ticket for public transport in Halle/Saale
- assistance with bureaucratic obligations and affairs concerning the public authority for aliens

Programme starts: July 2009 and October 2009
Applications are welcome at any time.

Application deadline: by 31.05.2009 the latest

If you'd like to take part in our project, please ask for application documents by e-mail.

We will also be happy to answer all your questions concerning the programme.
